Jody –

I put the PowerPoint in: I:\Restricted Share\U&O FIP\Technical Support Documents\UB Registration Data, where my other UB powerpoints are ...

Remember, I delivered this in March 2014 so could be needing updating. Do you want to set up a meeting to walk through the presentation + the Ozone 101 and how best combine?

My calendar is up to-date.

Yes please, thanks Cindy! And if you have ideas of which slides are most important, since you know the presentation and how it was received by the tribe, please let me know.

Thanks,

Jody

Thanks Cindy,

I can add some of this information to the BLM Ozone 101 presentation, especially the slides showing where the emissions come from, and the economic benefit of putting controls on existing sources.

Thanks,

Jody

Jody – per our phone conversation yesterday, here is the presentation I made in person to several Ute Tribe staff in March 2014 - ~2-3 hours with questions. More folks than just air and Minnie didn't actually sit in on the presentation. We also had Sarah Roberts there to present on the UIC program.

**Subject:** Travel to Uinta Basin

Hi All,

Does a trip to Ft. Duchesne in the Uinta Basin on March 14-16 work with your schedules? We would meet with the Ute Tribe's Air Program on the morning of the 15<sup>th</sup> and provide an ozone 101-type training and discussion. We could invite the State to a meeting with the Tribe's Air Program in the afternoon. Thoughts on the idea of two meetings?

Please let me know, and I'll check Minnie's and the State's availability.

Thanks,

Jody
